Sunt loca quędam mihi prorsus incognita. non enim potui summa industria consequi rationem inueniendi qua in prouintia aut focularia censerentur: cum ob uarietatem et multiplex non modum nominum sed etiam sillabarum discrimen: tum ob alia quędam ignota: aut quod uero similius est: quędam loca super uacua, ab his, scripta sunt uidi. et quamquam plera que sint, et desolata et ab incolis destituta loca: tamen pro uirili singulorum differentiam et interualla hoc pacto ut sequitur, anotabo.

Preterea quędam loca uulgari sermone Mamalia nuncupantur .i. libera perinde ac si sub iurisditione aut dominio baronum non fuerint. quędam uero ante se binas litteras .T.&.M. positas habent: quę indicant ut arbitror quod eiusmodi loca putant uulgariter dici Terre materne .i. loca dicata aut propria matribus hoc est Reginis.
